Yeshwant Pandit

PhD Student in Computer Science | Tata Institute of Fundamental Research, Mumbai

ypandit2001@gmail.com | ypandit08.github.io | Google Scholar

Research Interests

Algorithms, Graph Theory, Algorithmic Game Theory, Fair Division

Education

PhD in Computer Science, Tata Institute of Fundamental Research 2021–present
Mumbai, India
Advisor: Prof. Umang Bhaskar

MTech in Computational Mathematics, National Institute of Technology Karnataka 2016–2018
Mangalore, India

BE in Computer Engineering, University of Mumbai 2009–2013
Mumbai, India

Publications

Towards Envy-Freeness Relaxations for General Nonmonotone Valuations
U. Bhaskar, G. Kumar, **Y. Pandit**, and Rakshitha.
Proceedings of the 24th International Conference on Autonomous Agents and Multiagent Systems (AAMAS), pp. 298–306, 2025.

Extending EFX Allocations to Further Multi-Graph Classes
U. Bhaskar and **Y. Pandit**.
45th IARCS Annual Conference on Foundations of Software Technology and Theoretical Computer Science (FSTTCS), 2025.

Nearly Equitable Allocations Beyond Additivity and Monotonicity
S. Barman, U. Bhaskar, **Y. Pandit**, and S. Pyne.
Proceedings of the AAAI Conference on Artificial Intelligence, vol. 38, pp. 9494–9501, 2024. Extended version: Journal of Artificial Intelligence Research, vol. 85, article 2, January 2026.

Research Visits

University of Illinois at Urbana-Champaign May 2025
Hosted by Prof. Ruta Mehta.

Teaching

Teaching Assistant, Computational Social Choice Aug–Dec 2026

Selected Talks and Presentations

- "Extending EFX Allocations to Further Multi-Graph Classes," FSTTCS 2025 and ACM India IndiCS Winter School on Algorithmic Mechanism Design.
- "Towards Envy-Freeness Relaxations for General Nonmonotone Valuations," AAMAS 2025 and University of Illinois at Urbana-Champaign.
- Invited talk and poster presentation, ACM-ARCS Annual Event, 2025.
- "Nearly Equitable Allocations Beyond Additivity and Monotonicity," AAAI 2024.

Awards and Travel Grants

- Travel grants from ACM India-IARCS and IFAAMAS for AAMAS 2025.
- Travel grant from Microsoft Research for AAAI 2024.
- Travel grant from the University of Amsterdam for the Summer School on Computational Social Choice (COMPSOC), 2023.

Academic Service

Reviewer: Algorithmica, WAOA 2025, SODA 2027.
Sub-reviewer: EC 2025.

Industry Experience

Software Engineer, Intel Corporation 2018–2021
Bangalore, India

Assistant System Engineer, Tata Consultancy Services 2013–2015
Mumbai, India
